As you can see for yourself on the Texas Dept. of State Health Services COVID-19 Case Dashboard the numbers do reflect the numbers on the DSHS report provided to the County Judge which was dated 2/22/21. The list indicated a total of **248** cumulative confirmed as well as probable cases assigned to Shackelford County since March 2020. Currently, **2** cases were listed as active on that list provided by DSHS. However, the DSHS dashboard list **2** COVID-19 related fatalities assigned to Shackelford County during the pandemic.

**In real time**, the numbers for the Trauma Service Area D, of which Shackelford County is a member, continue to improve each day. Currently **42** people are hospitalized in Trauma Service Area D which is down from **205** three weeks ago.

**Be sure to check Shackelford County's webpage [shackelfordcounty.org](http://shackelfordcounty.org) regularly for the latest information regarding the availability of the COVID-19 Vaccine and free transportation to obtain the COVID-19 Vaccine.**

Shackelford County continues to enjoy an exemption from the closings, reduction in occupancy, and reduction in serving capacity mandated by the Governor's Executive Order GA-32, due to a minimal number of new COVID-19 cases **during** the previous 14 days. The threshold for the exemption under GA-32 is a **30 or less increase** of confirmed COVID-19 cases **on the DSHS list** during the previous **14-day period** on the DSHS list.

Join me in prayer for all involved. Thank you to those in our community that doctor us, wait on us, serve us, and those that protect us.
